# What is the LoG Conference?

LoG is a new annual research conference that covers areas broadly related to **machine learning on graphs** and **geometry**, with a special focus on **review quality**.

The second edition of the conference will take place from **27th - 30th November 2023**. The main event will be **virtual** and **free-to-attend**, with a strong emphasis on **local meetups** around the world.

We believe that a conference dedicated to learning on graphs plays an **important role in bringing together the research community** and accelerating progress in machine learning on graphs.

# LoG 2022 in Numbers

The inaugural edition of LoG took place in December 2022 virtually via Zoom and GatherTown, and was a great success:

## Attendees

- 2,800+ registrations
- 12,000+ YouTube views
- 940+ YouTube subscribers
- 650+ live Zoom attendees

## Program

- 266 paper submissions
- 71 poster presentations
- 372 reviewers
- 46 area chairs

## Community

6 local meetups, including:

- **Cambridge, UK**  
120+ attendees
- **MIT, Boston, USA**  
80+ attendees
- **Stanford, USA**  
80+ attendees

## Awards

- 20 top reviewers
- **US\$ 30,000+** in reviewer awards

# LoG 2023 is advised by the top researchers in the field

**Regina Barzilay**

Professor, Massachusetts Institute of Technology (MIT)

**Xavier Bresson**

Associate Professor, National University of Singapore (NUS)

**Michael Bronstein**

Professor, University of Oxford & Head of Graph ML, Twitter

**Stephan Günnemann**

Professor, Technische Universität München (TUM)

**Stefanie Jegelka**

Associate Professor, Massachusetts Institute of Technology (MIT)

**Shuiwang Ji**

Professor, Texas A&M University

**Thomas Kipf**

Senior Research Scientist, Google Brain

**Jure Leskovec**

Associate Professor, Stanford University

**Pietro Liò**

Full Professor, University of Cambridge

**Jian Tang**

Assistant Professor, HEC Montréal, Mila

**Jie Tang**

Professor, Tsinghua University

**Petar Veličković**

Staff Research Scientist, DeepMind

**Soledad Villar**

Assistant Professor, Johns Hopkins University (JHU)

**Marinka Zitnik**

Assistant Professor, Harvard University

**Bastian Rieck**

Principal Investigator, Institute of AI for Health, Helmholtz Munich

**Razvan Pascanu**

Research Scientist, DeepMind

## **BRONZE**

**\$2,000**

- Display company logo on our website and between the live sessions
- Access to the list of conference registrants + their CV (if the attendee agree)
- Virtual dedicated gathering space (GatherTown) to interact with participants

## **SILVER**

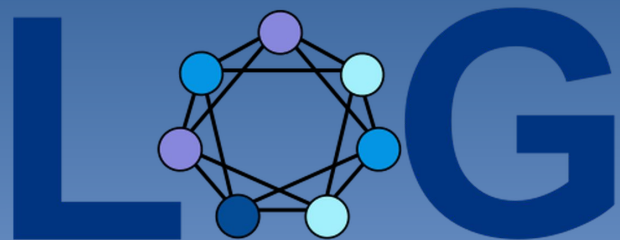

**\$5,000**

- Display company logo on our website and between the live sessions
- Access to the list of conference registrants + their CV (if the attendee agree)
- Virtual dedicated gathering space (GatherTown) to interact with participants
- Display short company advertisement between sessions
- Post ML-related job (up to 5) description for your company on the conference website

## **GOLD**

**\$10,000**

- Display company logo on our website and between the live sessions
- Access to the list of conference registrants + their CV (if the attendee agree)
- Virtual dedicated gathering space (GatherTown) to interact with participants
- Display short company advertisement between sessions
- Post ML-related job description (up to 7) for your company on the conference website
- Opportunity to give a keynote
